

ISO 9001:2015 QUALITY POLICY STATEMENT

It is the stated policy of Rochester Sensors UK Ltd to provide products and service of the highest quality to its customers.

Rochester Sensors UK Ltd recognizes that the success of the company lies in a commitment to the design and development of innovative products of the highest quality and reliability, the manufacture of products to the highest standards and the provision of an efficient and helpful service to its customers.

In order to achieve these aims, Rochester Sensors UK Ltd has put into effect a Quality Management System, which complies with the requirements of ISO 9001:2015.

The Quality Management System covers procedures for the design, development, production, inspection and supply of products manufactured by Rochester Sensors UK Ltd and supply only of products manufactured by approved sources.

The procedures to be followed under the Quality Management System, the Quality Objectives and the Continual Improvement procedures are defined in the Quality Manual.

All employees of Rochester Sensors UK Ltd are required to be familiar with and to understand the procedures of the Quality Management System relating to their function within the company and to follow and comply with all such procedures.

This Quality Policy Statement has been adopted by the Global Director of Quality of **Rochester Sensors UK Ltd**.
