

# **T/T10X Temperature Sensor**

The **T/T10X Series** of temperature sensors are designed to meet customer specific applications. They are available in a selection of body styles and connector configurations with various thermistors.

This range of products has been designed and engineered to be rugged and durable, and capable of extensive service in demanding environments. Suitable for use on many types of industrial engines, the **T/T10X Series** can withstand significant levels of vibration, shock, temperature and humidity.
