

ISO 9001:2015 QUALITY POLICY STATEMENT

It is the stated policy of Fozmula Limited to provide products and service of the highest quality to its customers.

Fozmula Limited recognizes that the success of the company lies in a commitment to the design and development of innovative products of the highest quality and reliability, the manufacture of products to the highest standards and the provision of an efficient and helpful service to its customers.

In order to achieve these aims, Fozmula Limited has put into effect a Quality Management System, which complies with the requirements of ISO 9001:2015.

The Quality Management System covers procedures for the design, development, production, inspection and supply of products manufactured by Fozmula Limited and supply only of products manufactured by approved sources.

The procedures to be followed under the Quality Management System, the Quality Objectives and the Continual Improvement procedures are defined in the Quality Manual.

All employees of Fozmula Limited are required to be familiar with and to understand the procedures of the Quality Management System relating to their function within the company and to follow and comply with all such procedures.

Paul Holtby
